

## Astute LXP Release Notes – September 2025 (V3.4.3)

Release Date: September 25th 2025

The September 2025 release (v3.4.3) delivers performance improvements and a series of important fixes across the platform. Updates to reporting, email management, courses, and surveys address a range of issues to improve overall stability and reliability.

### Performance Improvements

- Previous LMS Records - Improved speed of importing of records.
- Previous LMS Records – Importer now highlights any learners on the CSV upload that are not on the organisation and advises it has not uploaded the record as the user does not exist.

### Bug Fixes

- Previous LMS Records - creating a new course every time an upload was processed.
- Previous LMS Records – The columns for the CSV Export have been fixed
- Videos - Fixed issue where some videos were stuck buffering.
- LXP Reporting - Issue where some *Not In* filters on LXP Report Builder where not correctly filtering has been resolved.
- LXP Reporting - Report Packs search not working has been fixed.
- Email Management - Fixed issue where certificates were not attaching to congratulations emails correctly.
- Courses - Archived Courses are now not able to be put into existing enrolment events.
- Courses - Fixed sporadic issue where copied courses would not show on the Courses section.
- Organisation Settings - The Welcome Message feature has been fixed and will now show when set.
- Surveys - The *Optional* function on the freetext option now saves correctly.
- Surveys – Fixed that Responses was showing the incorrect number of responses.
- Enrolments – Reactivated learners will now be added to any enrolment events where the rules are to enrol all users. Previously, these were erroneously not enrolled onto these events.

- Risk Assessments - Fixed issue where Risk Assessments Notes were not always showing.
