

Astute Release Notes September 2026 (V3.6.1)

Release Date: September 30th 2026

Every organisation can now build its own view of its training data on the Visual Dashboard.

Scheduled report cover emails can now be edited, and there are fixes across courses, certificates, Training Records and Instructor-Led Training. Departments and job titles are now managed from the top of the Learners page, replacing Organisation Structure in Organisation Management.

New Features

The new Visual Dashboard, on the Visual Dashboard tab in LXP Reporting, lets you pick the numbers that matter to you, choose how each one is shown, and arrange them on a single screen. Where the old dashboard gave everyone the same fixed charts, the new one allows you to build a dashboard from what you want to know. Who has not logged in lately, which courses are being completed, how many enrolments are coming up for renewal, and much more besides.

Share a dashboard with colleagues and set it as the view they land on when they open reporting. Managers see the learners in their own reporting line, so one dashboard shared across a team shows each manager their own people. Anyone who wants to adapt a shared dashboard can take their own copy.

Enhancements

- **Departments and job titles:** departments, sub-departments, job titles and department heads now have a page of their own, opened from the Departments and job titles button at the top of the Learners page.
- **Learners:** Manage Selected Learners now opens in a panel on the Learners page and shows who you have selected.
- **Learners:** deactivating a learner who is someone's manager or Department Head now asks you to reassign their learners or clear the reference.
- **LXP Reporting:** the cover email sent with a scheduled report can now be edited.
- **News:** the News icon now shows how many unread updates you have.

Bug Fixes

- **Courses:** we identified and fixed an intermittent issue with some course completions within Microsoft Edge.
- **Instructor-Led Training:** adding and editing courses is now limited to only ILT Admins, as intended.
- **Instructor-Led Training:** a completed course no longer also shows as incomplete on My Progress.
- **Training Records:** Additional Fields now save correctly and can be added as columns in View Records.
- **Certificates:** managers can now open their team members' certificates from the Learner Certificates page.
- **Trigger Emails:** emails with a certificate attached now send again.
- **Learners:** the Show All option in the active filter now displays properly.

Please Note

- Organisation Structure has been removed from Organisation Management. Departments, sub-departments and job titles are now managed from the Departments and job titles button at the top of the Learners page.

Feedback

As always, if you have any questions or need assistance, your Account Manager or our Support team is on hand at AstuteSupport@vinciworks.com.
