

Astute Release Notes August 2026 (V3.5.9)

Release Date: August 20th 2026

This release is mostly Instructor-Led Training. There are also fixes across LXP Reporting, My Progress, Quick Quiz and the Learners page, and the existing Visual Dashboard tab has been removed from LXP Reporting ahead of its replacement.

Enhancements

- **Instructor-Led Training:** Completed classes now move into Completed on the learner home page once you have recorded attendance, and learners keep access to their class and module resources afterwards.
- **Instructor-Led Training:** Class names can now be edited after the attendance register has been submitted, so spelling errors can be corrected. All other class details stay locked once the register is submitted.
- **Instructor-Led Training:** Renaming a course that already has completions now tells you how many learners records will be affected.
- **Instructor-Led Training:** Further chaser and trigger email and merge field options have been added.
- **Two-Factor Authentication:** Codes now submit automatically once the sixth digit is entered instead of requiring to click submit.

Bug Fixes

- **Instructor-Led Training:** Adding a learner to an existing class now saves correctly.
- **Instructor-Led Training:** Denying one enrolment request now denies only that request, and the reason you enter is included in the email to the learner.
- **Instructor-Led Training:** Validity chaser emails now go only to learners on the courses selected for that chaser.
- **Instructor-Led Training:** The course expiry date now appears correctly in chaser emails as well as trigger emails.
- **Instructor-Led Training:** The Score field on the attendance register now works again.
- **Instructor-Led Training:** Approval emails to line managers now send.
- **Instructor-Led Training:** Class Resources and Module Resources now open correctly.
- **Instructor-Led Training:** Course expiry dates no longer show time of expiry.
- **Instructor-Led Training:** Class details now show “None specified” where no trainer has been set.
- **LXP Reporting:** The First Completed column on ILT reports now shows the date without a time.
- **My Progress:** First Passed and Last Passed now show the correct dates for completed classes on the Instructor-Led Training tab.
- **Quick Quiz:** Answer text now displays on drag and drop questions.

Changes To Be Aware Of

- **LXP Reporting:** The existing Visual Dashboard tab has been removed, as set out in the notice that has been showing on the tab. This is ahead of the new reporting dashboard, currently in testing, where you choose your own charts and tables and arrange them how you want to see

them. We will let you know when it is ready. The old tab held no saved content, so nothing has been lost, and Report Builder and scheduled reports are unchanged.
